

A Message from the CEO Salvatore Pulvirenti

"Our strong experience may be distinguished from the projects managed within the Tiscali Group.

Tiscali Services enters the market as a new generation ASP, introducing tiered professional skills and the capability of its staff to offer innovative solutions tailored to the end user's requirements, with technological platforms providing positive impact on our customers' business.

The Y2K market requires high level know-how, speed, impressive time-to-market, simple, efficient and streamline new offers.

Tiscali Services covers the compelling demand for high quality in ICT products."
